Things for Which She's No Time.

A HARD WORKER WITHOUT SALARY An Unwritten Contract, but One That's

None the Less Binding.

ITEMS OF INTEREST FOR CHRISTIANS

Protestant ministers, not thinking it required of them by any law, either human or divine, to live a life of celibacy, take to themselves wives, thinking they will be of great comfort to them in their homes, or rather in making a home. But there are churches that seem to forget a minister's wife has any household cares to occupy her time and attention. She is expected to lead in all the work of the Aid Society, to preside at all missionary meetings, to teach in the Sabbath school, to visit all the sick, to go to comfort and help the distressed, to take charge of all the ladies' prayer meetings, to superintend all suppers, teas, socials, bazaars, etc.; in short, she is expected to be all things to all women, that by any means she may help some. But why should she be asked to do all this? She is a member of the church; so are other ladies. "It might be means of power in the pastor's work if his partner were possessed of all graces," so that she night be his assistant, withoutsalary; but have the churches any right to ask so much from her? At a time when some ministers are introducing new wives to congregations and so many others are beginning work in new fields many others are beginning work in new neids it will be well for both parties if they will, in this respect, begin aright. Marion Harland, who knows well how these things are by personal experience, having been a minister's wife for many years (she being the wife of Rev. E. P. Terhune, D. D., Brooklyn, N. Y.), wrote an article for the North American Review worthy attentive perusal by all in the churches. In it she well ease.

Terhune, D. D., Brooklyn, N. Y.), wrote an article for the North American Review worthy attentive perusal by all in the churches. In it she wellsays:

"There is no propriety in expecting the woman who has espoused a clergyman to have, ex officio, special fitness for all departments of charitable and religious labor. Common sense rules ate may suit him excellently well as a wife, yet be endowed with no peculiar gifts for 'leading meetings' and 'taking chairs.' He cannot, after the manner of other public men, bold in the knowledge that their houses are their castles, cast himself between her and her censors with the protest, 'A poor thing, but mine own.' I have known men thus 'hindered' to drag the shrinking weaklings into the forefront of the battle, prick them into action beyond their strength by frantic appeals to expediency, custom, pride, love, piety, until the victims of a false system, wounded and wearied to their death, fell under the harness so much too heavy for them. The minister's wife is, in too many parishes, virtually included in the engagement which hires him, body and son!. The unwritten contract is unfair, cruel and iniquitous. What a private church member of equal ability can do, she is bound to undertake, and nothing more. What she may or may not accomplish should affect her husband's influence in the same field no more than if he were a lay communicant in the church to which she belongs. I need no father or mother in Israel to warn me I am touching upon delicate and dangerous ground. There are exceptional parishes where the love and loyalty rendered the pastor envelope his home and the dwellers therein in an atmosphere of affectionate appreciation, which is at once sweet and wholesome, invigoration and balm. Labor with such a people is continual joy, and companionship with those who compose it enriches with fuller meaning the phrase—'The household of faith.'"

Backer, Vice President; Reuben Miller, A. Frank and Philip Simon, Trustees. They will sell the old synagogue, and build a \$60,000 one on the hill.

AT the meeting of the Pittsburg Synod, held at Indians, Pa., this week, a movement was in-augurated to secure the necessary legislation to provide more chaplains, prohibit gambling and liquor selling in the army, and to relieve the soldiers from all unnecessary work on the Sabbath.

REV. T. DEWITT TALMAGE asks contribu tions to rebuild the Tabernacle, which was destroyed by fire on Sunday morning last. This catastrophe has caused him to change his plans in reference to his visit to the Holy Land. While his congregation is large, it is far from wealthy.

REV. G. C. VINCENT, D. D., LL.D., whose HEV. G. C. VINCENT, D. D., ILLD., whose health has been failing for several months, died on Wednesday morning. His last public work was as pastor of the U. P. Church, La-trobe. He was 70 years of age, and had been pastor in Washington, lowa, and Mercer, Pa., also professor in Westminster and Franklin Colleges. REV. JEHU HALLIDAY, pastor of the A. M.

E. Zion Church, Johnstown, is soliciting funds for the rebuilding of their church. He is indorsed by the Conference, and will preach to-morrow morning in Avery Mission, North ave-nue and Avery street; also in the afternoon and evening in Halliday Chapel, Penn avenue and Thirty-first street. REV. G. T. PURVES, pastor First Presby-

terian Church, has the sympathy of a large number of friends, in the sudden death of his mother, on Monday last. She came to Allegheny to visit at his home on Saturday, on Sunday was stricken with paralysis. She was 79 years of age, and had been very active in religious and charitable work. RECENTLY a "moonlight" service was held in the Episcopal Church, Foxburg. It was moonlight because the full moon

shining in, was the only light the congregation had; organ and reading desk being darkened by screens. The music was beautifully rendered by a picked choir from Pitsburg. The service was much enjoyed by a large congregation. REV. R. H. Hoop, not being present at the Ministerial Association on Monday, reports

were given from the farewell missionary meet-ings on Sunday evening. The subject for next Monday is: "Can Temperance and Other Pelitical Reforms be Preached in Such a Way as not to Interrupt, but Fromote the Efficiency of the Gospel in Saving Sinners." Rev. T. J. McCrory is to open the discussion. A VERY pleasant spirit of fraternity is abroad

in the suburban borough of Bellevue. The trustees of the Methodist Protestant Church Presbyterians while theirs was being repaired, and now the United Presbyterians while theirs was being repaired, and now the United Presbyterians hold their services in the evening and the Methodist Protestants in the morning. WASHING FOR GOLD ONLY TO GET WAGES (CORRESPONDENCE OF THE DISPATCH.)

CAMP SHAKESPEARE, GRANT COUNTY, N. M., October 13. Though the real general development of this Territory's mineral resources commenced only a few years ago, Pittsburg capital is already largely invested therein. It was not until geological and mineralog-ical surveys had been made and reported by the General Government, and the coming of railroads and convenient transportation had become an assured fact, that this live development commenced. Sufficient has thus been demonstrated to clearly establish beyond doubt that New Mexico is one of the richest and most permanent in mineral resources of all the States and Territories; that there are within its borders many mines entitled to rank among the most re-markable and richest in yield in the known

Generally the resources of the Territory consist largely of not only its mines of precious metals, but likewise of copper, lead, man-ganese and iron, beside mica, salt, coal, gypsum, soda, lime, kaolin, cement, sulphur, plumbago, mineral paints, marble and building stones. Precious stones, such as tur-quoise, garnet, moss agate and emerald are

BOTH RICH AND ATTRACTIVE.

Grant county at present, as for many years, is recognized as the principal mineral producing portion of New Mexico, and is situated in the extreme southwestern portion of the Territory. It is very large, and is beautifully diversified by elevated grassy plateaus, mountain ranges and peaks, and fertile valleys. The first discovery of gold in the county was in 1859, near Pinos Altos, about nine miles north of the present site of Silver City, the county seat, and for several years thereafter from 1,000 to 2,000 men were actively engaged in gulch mining in this place. The placers are represented to have been very rich and of considerable extent. Washing is still carried on, upon a small scale, by persons without much capital, who, when not prevented by scarcity of water, make good wages at the work.

One of the greatest districts of the territory, in its quantity and quality of ores, is about 25 miles southwest of the Burro Mountains, near the line (two and a half miles distant), of the Southern Pacific Railroad, and in the Pyramid range of mountains. The mineral bearing area is about 20x8 miles in extent, and is most promising.

The Amount of Preparatory Red Tape Necessury - Prespective Consolation for Men Wanting a Job.

The Schenley Park project is not dead, but resting until the proper time comes for re-awakening official and public interest in the matter. Before any practical steps can be taken to beautify that portion of the city considerable civic legislation is required. Controller Morrow, when asked what the

nature of such legislation would be replied that first an enabling ordinance was needed to empower the city to receive any gift of ground Mrs. Schenley may make, as in the case of Sneider Square in the Twelfth ward. given by the Denneys in 1872. The park must be accepted and dedicated to that purpose subject to the conditions in the deed of gift. Then an ordinance will have to be passed authorizing the purchase of any addi-tional ground which may be necessary to complete or enlarge the gift to such an ex-tent as to make it appropriate for the pur-pose intended, and the appropriation bill will have to provide the money for park

purposes.

Another feature of the preparations and Another feature of the preparations and one most interesting to people out of a job at the time is the necessity of a Park Superintendent and assistants and probably park police. The superintendent's position will be similar to that occupied by William Hamilton, of the Allegheny Parks. The Controller here said that no undue hopes should be excited or resignations take place in the hopes of securing one of those positions as it will be three or four years before there will be any necessity for their existence, during which time the tract of ground will be in the hands of the Department of Public Works. George H. Dorris was walking down South Twenty-fourth street yesterday when some boys began jeering at his somewhat outlandish get up. Dorris had on an old battered hat, and the young gamins were very solicitous about the antecedents of the headgear in question; calling out "where did you get that tile," to the intense disgust of Mr. Dorris. Finally Dorris rushed at the urchins, and caught one of them, a little fellow named Edward Casey, whom he kicked and beat brutally with his cane. Having obtained his revenge he sauntered off. Meanwhile Casey's mother, who lives near, arrived and ran to find a policeman. Officer Gannon was at hand, and immediately started in pursuit of Dorris but could not find him. Mrs. Casey says that Dorris very solicitous about the antecedents of the not find him. Mrs. Casey says that Dorris is boarding on Twenty-first street, and has a gradge against her husband. —E. H. Ammidown has resigned the Presidency of the American Protective Tariff Association. He gives as his reason lack of time to spare from his private business to the work of the association. Reports were circulated yesterday that the real reason for the action of Mr. Ammidown was that he did not sympathize with the efforts of the wool growers to secure a higher tariff on wool. He is a woolen manufacturer. When these reports were mentioned to Mr. Ammidown he admitted that he was in favor of letting the duties on wool alone, but emphatically denied that this had anything to do with his resignation.

—The cheap lodging house of Patrick Hig-

do with his resignation.

—The cheap lodging house of Patrick Higgins, at No. 320 North Front street, Philadelphia, was the scene of a murder shortly before il o'clock Thursday night, when Andrew Dolan, an old man, stabbed a young man, a new lodger, whose name is not known, killing him instantly. The men had a quarrel, the cause of which is not known. Dolan was arrested and taken to the police station, where he refused to talk. The murdered man was about 25 years old, and it is understood that he came from New York. He was a slate worker by trade, and was regarded as a quiet, in-offensive man.

—The Cherokee Commission is again incom-

offensive man.

-The Cherokee Commission is again incomplete, owing to the death of one of its members, General Hartranft, of Pennsylvania. This commission was created to treat with the Five Nations for the sale of the lands in Indian Territory not needed by them. President Harrison had difficulty in securing three commissioners to conduct the negotiations. Finally a commission was secured by the acceptance of their appointments by Judge Little, of Arkansas; General Lucien Fairchild, of Wisconsin, and General Hartranft, of Pennsylvania. General Hartranft was the last to accept. The commission has only made one trip to the Indian Territory, but was preparing to go to work earnestly next spring.

-The board of inquiry which has been sit-

paring to go to work earnestly next spring.

—The board of inquiry which has been sitting at Jofferson Barracks, Mo., the army recruiting station, for nearly three weeks past to ascertain if possible why there are so many desertions from the army, has completed its labors. Over 50 witnesses, including officers and men of all grades, were examined, but there is a difference of opinion as to whether the charges made by Woodward, the recruit, regarding the treatment and food of the men, upon which the inquiry was based, have been fully substantiated. The testimony taken makes over 300 pages of typewritten matter, and will be ready to be forwarded to Secretary of War Proctor today. Colonel Lawton will also make a report on the sanitary condition of the barracks.

AN INDUSTRIAL EXHIBIT.

The Pan-American Tourists Will be Shown What Pittsburg Can Do.

The Exposition of Pittsburg's manufact-urers' industries for the benefit of the South American visitors, promises to be a very interesting feature of the trip. Mr. D. C. Ripley, Chairman of the Special Exhibit Commit tee, says that the show will give the expected guests a pleasant surprise. The ob ject of the exhibitors is to give these people an idea of the superiority of Pittsburg's goods over those of Europe. About 20 stands now in Mechanical Hall will remain there, and \$25,000 will be spent within the two days of the visit. An arrangement will be made with the Philadelphia Gas Company for a with the Philadelphia Gas Company for a magnificent display of gas on the river. Mr. Ripley states that applications for space have been received from the Standard Underground Cable Company, the Westinghouse Electric Company and the Porter Locomotive Works. Colonel T. E. Roberts, John Bindley, A. J. Logan and A. E. Hunt are associated with Mr. Ripley on the committee, and they will hold a special meeting on next Monday afternoon at 3 o'clock for the further consideration of the arrangements. arrangements.

Does it hurt the Clothes? We hear that some woman said of Pearline-"it's the greatest thing I ever saw for easy washing and cleaning, in fact it does so much I'm afraid of it." She

recalls the old saying, "too good to be true." How absurd to suppose that the universal popularity of Pearline is due to anything but wonderful merit.

How absurd to suppose that millions of women would use PEARLINE year after year if it hurt

the hands or clothing

How absurd to suppose that any sane man would risk a fortune in advertising an article which would not stand the most severe (and women are critical) tests.

That's just what PEARLINE will stand-test it for easy work-quality of work-for saving time and labor -wear and tear-economy-test it any way you will-but test it. You'll find PEARLINE irresistible.

Beware Peddlers and some unscrupulous grocers are offering imitations which they claim to be Pearline, or "the same as Pearline." IT'S FALSE—they are not, and 266 Manufactured only by JAMES PYLE, New York.

Mr. Frank Bordar, a well-known gentleman, suffered for ten years from kidney disease. After receiving two months treatment from the physicians of the Polypathic Medical Institute, he gave the following interesting history, with permission to publish it. He said: "I had much pain across my back and lower part of my body. My hands and feet would often get cold, and sharp cramps would often seize me. My heart would at times paipitate as if it would jump out of my body. Hot flashes would often come over me. I was always tired on getting up in the morning. The disease finally extended to my lungs, causing much pain and tightness in my chest. In van I tried to find some doctor who could cure me, but could only get a little relief, and so I suffered on in this way for ten years. I finally read in the papers of wonderful cures being made by the physicians of the Polypathic Institute, and as I read that they made a specialty of my disease, I began treatment, and I am glad to state that I have been cured."
